PROFILE INFO

I am a very ambitious software engineer looking for an established IT job. The position I'm interested in is Front End Developer. Although I have no experience as a professional programmer or developer. But I like technology and am ready to learn new things and grow professionally. That's why I'm interested in working in this position. I believe in my competence, experience, good analytical skills and responsibility are my qualities. I look forward to working with you and doing my best for the best interests of your company.

WORK EXPERIENCE

Prepare Project & Project I   **2020 - 2021**
